

DVV CLARIFICATION

6.2.3 institution Implements e-governance.

ENERGY POLICY

The energy policy of Kautilya Mahila Shikshak Prashikshan Mahavidyalaya, Kota College of Education for Women proposes actions to transform the way energy is consumed.

- Electricity: The institution strongly recommends the usage of LED lights in all the possible ventures of electrification for less and efficient consumption of electricity.
- **Renewable Energy:** The institution reduces the use of electrical energy through the use of solar power.
- **Cooking:** The institution uses LPG gas to reduce the use of cooking gas.
- **Transport:** The institution invests in the purchase of efficient buses for transport and encourages both the staff and students to use fuel less vehicles like bicycles/ebikes.
- **Building:** The institution enhances the availability of better insulation and construction materials in buildings and domestic appliances with energy efficiency.
- Green Initiatives: The institution invests in efficient drip irrigation for green initiatives. It encourages organic farming and planting trees in the campus. Bionets and vermicom posting in the institution reduces the use of fertilizers.
- Education: Awareness creation is an essential component of the energy policy of the institution.

NAAC ACCREDITED

OBJECTIVE OF ENERGY MANAGEMENT –

- To Minimize energy costs/waste without affecting production & quality.
- To minimize environmental effects.

ENERGY MANAGEMENT PRINCIPLE-

In our progressive Education Society B.Ed. College we follow some principal for energy management i.c. –

- Use of renewable energy
- Use of natural energy source whenever possible.

TYPES & USE OF ENERGY

Sr. No.	Types of Energy	Energy Uses
1	Electrical Energy	 For office. Staffroom & Kitchen (Lights & Fans) Computer & related teaching instrument (LCD Projector) Water purifier & pumping
2	Solar Energy	• Lights on campus
3	LPG	• In kitchen for food preparation.
4	Transport	• Staff and students to use fuel less vehicles like bicycles/ebikes.

ENERGY POLICY

Progressive Education Society's B.Ed College is one of leading teacher training college which is affiliated to Kota University, Kota. Our college plays a very important role in the society to add more knowledge, awareness to the people. And we try to set a good example in front of society.

Our Mission for Energy Policy is -

• To provide an environment that enables the students to play a vital role in the energy conservation on the Kautilya Mahila Shikshak Prashikshan Mahavidyalaya, Kota Campus.

- To create awareness among students about energy conservation.
- Maximum use of natural lights.

Statement of Policy -

As a responsible Education institution, it is our responsibility to have a policy for the energy conservation. It will help us to embed efficiency and environmental awareness into our every-day activities, such as minimizing the energy consumption.

Kautilya Mahila Shikshak Prashikshan Mahavidyalaya, Kota policy always put effort in conveying the same to the students & Staff member. Our College's Energy policy is committed to protection and promotion of Energy Conservation.

PRINCIPAL KAUTILYA MAHILA SHIKSHAK PRASHIKSHAN MAHAVIDYALAY NAYAGAON,KOTA (RAJ.)

Energy management Action Plan –

This we plan to achieve:

• We try to spread awareness on environment issues and an environment friendly life-style among the academic community and neighbourhood community through Day to Day activity.

• Pay special attention to waste of energy.

• Focus On renewable energy resources including solar Panel, rain water Harvesting etc. as much as possible. Try to Protect and promote diversity.

1. Personal computers, other office equipment, light, fans should be turned off when not in use.

2. Natural light was provided in the classroom by keeping the windows constantly open.

3. To reduce energy consumption, low energy consuming College can shift from traditional lights to modern CFLS and LED bulbs.

4. Putting the computer in Power Saving mode will automatically turn off the screen when the computer is not in use.

5. Use natural light.

- 6. Unplug LCD, computers, and smart boards when not in use.
- 7. Laptops and Desktop are part of teaching our methodologies; they

must be checked when not in use.

Elimination of Energy wastage:

- ✓ Use of natural light.
- ✓ Use of Natural ventilation.
- \checkmark Use of power saving mode for computers.

WASTE MANAGEMENT POLICY

The waste management policy of Kautilya Mahila Shikshak Prashikshan Mahavidyalaya, Kota College of Education for Women proposes the following practices inside its campus for waste management:

OUR MISSION FOR WASTE MANAGEMENT POLICY IS

- Ensuring that waste management is performed in accordance with all waste legislative requirements
- Promoting the student about environment values, ethics and awareness on campus
- Investing in the transformation of waste into value added products
- Segregation of waste into dry and wet waste from the separately allotted dustbins is done in strategic locations, thus maintaining the Campus clean
- Reduction the consumption of polythene
- Conversion management of organic waste into bio-compost

OBJECTIVE OF WASTE MANAGEMENT –

- Segregating solid waste on daily basis
- Reducing the quantity of solid waste disposed off in the campus
- Reusing and recycling the solid waste wherever possible
- Taking efforts to make the campus Plastic free
- Creating environmental consciousness through observation of various days

PRINCIPAL PRINCIPAL KAUTILYA MAHILA SHIKSHAK RASHIKSHAN MAHAVIDYALAY NAYAGAON,KOTA (RAJ.)

WASTE MANAGEMENT PRINCIPLE-

- 4Rs: Refuse, Reduce, Reuse & Recycle
- Segregation at source: Store organic or biodegradable and inorganic or non-biodegradable solid waste in different bins. Recycle of all the components with minimum labor and cost.

TYPES OF WASTE

• Commonly waste is classified into two types: Biodegradable and Non-biodegradable waste. These two kinds of wastes are explained below:

TYPES OF WASTE			
Biodegradable Waste	Non-biodegradable Waste		
These are the wastes that come from our kitchen, canteen and it includes food remains, garden waste, etc. Biodegradable waste is also known as moist waste. This can be composted to obtain manure. Biodegradable wastes decompose itself over a period of time depending on the material.	include old newspaper, broken glass pieces, plastics, etc. Non

ACTION PLANS

Kautilya Mahila Shikshak Prashikshan Mahavidyalaya, Kota College has adopted specific action plans for managing various types of waste:

Paper Waste

- Implement paper-saving initiatives.
- Encourage digital documentation and communication.
- Promote double-sided printing.

Solid Waste

- Implement waste segregation at source.
- Create collection points for biodegradable, non-biodegradable
- Utilize Manure pit for biodegradable waste.

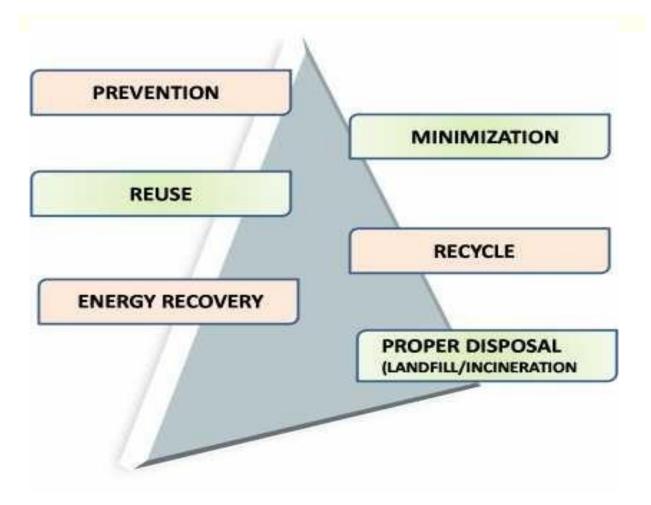

PRINCIPAL KAUTILYA MAHILA SHIKSHAK PRASHIKSHAN MAHAVIDYALAY NAYAGAON,KOTA (RAJ.)

Non-Biodegradable Waste

S

- Promote reusable glasses and cloth bags.
- Prohibit flex boards and encourage digital displays.
- Minimize plastic usage for student projects and food containers.

RAIN WATER HARVESTING

INTRODUCTION

Rainwater harvesting (RWH) is the process of collecting and storing rainwater for reuse before it reaches the ground. This technique has been employed for centuries and has gained renewed interest in recent years due to its potential to address water scarcity, reduce flood risks, and promote sustainable water management. Water is so essential for life that it's simply impossible to imagine life without water. India has 16% of the world's population and only 4% of the world's water resources are available for use, and that too are depleting rapidly. The demand for water is expected to grow from 40 billion cubic metres (bcm) currently to around 220 bcm in 2025. The uneconomical and unethical use of water by human beings is the sole reason for the exploitation and deterioration of this valuable natural resource. Thus, both quality and quantity of water are at stake and have to be taken care of. It's the moral duty and social responsibility of each individual and community as a whole to contribute to conserve water and rejuvenate the water resources.

In this direction, our institute has made efforts to ensure water conservation and water harvesting. The campaign has been channelized

with the Motto "Be Water Smart, Every Drop Counts" following the 3R principle - Reduce, Reuse and Recharge.

The primary goal of Kautilya Mahila Shikshak Prashikshan Mahavidyalaya, Kota is to provide safe and clean water in whole campus area. The college is implementing water efficient practices.

Student and staff engagement play a major role in our water sustainability strategies.

Reducing water consumption and protecting water quality shall be the key objectives of sustainable policy of Kautilya Mahila Shikshak Prashikshan Mahavidyalaya, Kota.

Goals and plans:

- ➤ Maximize water use efficiency and minimize wastage of water.
- > All existing buildings to be used for rainwater harvesting.
- Promote investment in green infrastructure in all future development plans.
- Ensure awareness about the water conservation policy of the college among all the staff and students.
- Create awareness about the cost effectiveness of water conservation projects among students and local communities.
- Organise various outreach programmes under the leadership of NSS, Eco-club, Science-club and other student bodies.

- Promote students to monitor and collect information related to water bodies and their pollution of nearby areas.
- Inform, educate and increase the awareness regarding the importance of water to life and the need for conservation and efficient use of water.

IMPORTANCE OF RAINWATER HARVESTING

- 1. **Water Conservation**: RWH helps in conserving water by capturing rainwater that would otherwise be lost as runoff.
- 2. **Reduction of Urban Flooding**: By diverting rainwater into storage systems, RWH can mitigate flooding in urban areas.
- 3. **Groundwater Recharge**: Harvested rainwater can be used to recharge groundwater aquifers, supporting local ecosystems.
- 4. **Cost-Effective**: It can reduce water bills and lessen the demand on municipal water supplies.
- 5. Environmental Benefits: Reduces soil erosion and the risk of pollution by minimizing surface runoff.

METHODS OF RAINWATER HARVESTING

- 1. **Rooftop Harvesting**: Collecting rainwater from rooftops through gutters into storage tanks.
- 2. **Surface Harvesting**: Collecting runoff from land surfaces, typically through constructed ponds or reservoirs.
- 3. **Infiltration Pits**: Small pits or trenches designed to allow rainwater to seep into the ground, promoting groundwater recharge.

COMPONENTS OF A RAINWATER HARVESTING SYSTEM

- Catchment Area: The surface that collects rainwater (usually rooftops).
- **Downspouts**: Channels that direct rainwater from the catchment area to storage.
- Storage Tanks: Containers that store collected rainwater for future use.
- Filtration System: Filters that clean the water before it enters storage, ensuring it is safe for use.
- **Natural reservoirs**: The runoff has to be minimized adequate number of percolation pits & dispersion trenches behind the trees.

ENVIRONMENT POLICY

Policy Objectives:

- > To sensitize students towards a Clean, Green, and Sustainable Environment.
- > To use LED bulbs and other energy-saving devices within the campus.
- Encourage the use of public transport for the conservation of nonrenewable energy resources
- > To make the campus plastic-free
- To make the campus lush green, thus to reduce the impact of urban heat island

Policy:

- To provide a clean and green environment in and around the campus, it has been decided to take sustainable initiatives for environmental protection and efficient energy usage.
- Efficient land use pattern to be implemented by optimizing green coverage
- The college has to adopt means for energy-saving technology and proper management for the segregation of wet and dry waste.
- > Planting of trees to reduce heat consumption
- Sensitizing all the stakeholders to minimize the use of nonrenewable energy resource
- > To minimize the use of non-recyclable waste

- > Students to be sensitized to reduce their plastic footprint
- Pedestrian-friendly pathway
- > To introduce steps towards the use of less paper.
- Policy Implementation: To achieve the objectives, the college has already implemented its environmental policy in the following areas:
- Energy& Water Saving: The staff members and students lead initiatives to save significant electricity and have developed a policy for reducing electricity consumption by using LEDs and replacing the old tube lights with LEDs. We display placards containing notifications regarding Switching off Lights & Fans in every class while leaving the classroom. Similarly, at every water connection point, we display a placard of 'Save Water'. In every classroom, all lights, fans, and switches have been prominently numbered to minimize the misuse of electricity.
- Say No to Plastics: Teaching and non-teaching staff members and students are fully aware of plastic pollution and are motivated to avoid the use of plastic. Students, teaching, and non-teaching staff practice minimum or no use of plastics in the campus. We display a banner &posters of 'Say No to Plastics' in the college campus. Similarly, in every class, we display placards containing notifications regarding 'Say No to Plastics', 'Stop Using Plastic', 'Save Environment' etc. The Institution also encourages the students to use Cotton Bags instead of plastic. The Institution also Celebrates Green Day to create awareness about Global Environmental Issues.

- Tree Plantation: College NSS, NCC Unit & Nature Club students Planted Medicinal Plants in the College Premises. Floral Green Bed has been prepared on both sides of the pathway from the entry gate. Composting has been initiated to prepare manure by recycling canteen waste for maintaining eco – friendly campus.
- Green Audit & Environmental Audit: college has been conducted Green Audit & Environmental Audit to safeguard the environment, energy conservation, use of renewable sources, etc. The college has been taken a maximum effort to maintain our campus eco-friendly.
- Waste Management: The College has installed compost pits for making compost from the garden waste such as leaves and grass clippings.

SHINGHAK PRASHIKSHAN MAHAVADYALAY OTS MALL NAYAC

The institution has received **Fifth Rank** in "All India Survey Non- residential College Swachhta Ranking 2018", a national award by AISHE the ministry of HRD, Government of India, New Delhi.
